◆ Press the 【SET】 button for the fourth time, confirm that the system time setting is complete.

Button settings for working mode (total of 5 groups)

A First, press the 【MODE】 button,
the LCD display shows the factory setting time, this machine can set 5 working modes. For example: set 8 am-10 am, 11 am-12 pm, 1 pm-2 pm.
Crossing over 00:00, set two time periods, such as the first period 08:00-23:59, the second period 00:01-06:00.
The first time you press the 【SET】 button, you enter the start time setting for the first time period, the hour digits flash, and you adjust the hour by pressing the 【UP/DOWN】 buttons.
Press the 【SET】 button for the second time, the hour setting is completed. The minute digits flash. Adjust the minute by pressing the 【UP/DOWN】 buttons.
Upon the third press of the 【SET】 button, the minute setting is completed, and move to set the work day. Pressing the 【UP】 button once will display the symbol "▲" at the top of the LCD screen in the day of the week column, indicating that the workday is selected. If "▲" is not displayed, it means it is not selected. Then press
【DOWN】 to move right and continue setting other day combinations.

B Press the 【MODE】 button for the second time to set the off time.
The first press of the 【SET】 button enter the setting of hour, adjust the hour by pressing the 【UP/DOWN】 buttons; the second press of the 【SET】 button completes the hour setting, and the minute digits begin to blink, adjust the minute by pressing the 【UP/DOWN】 buttons.

C Press the [MODE] button for the third time to enter the spray duration (intensity setting).
Adjust the intensity by pressing the 【UP/DOWN】 buttons, select the appropriate intensity, with each press adjusting the duration by 5 seconds, the maximum value is 200 seconds, and the minimum value is 5 seconds.

D Press the 【MODE】 button for the fourth time to enter the pause duration (intensity setting).
Adjust the pause time by pressing the 【UP/DOWN】 buttons, Each press adjusts the duration by 5 seconds, the maximum value being 600 seconds and the minimum value being 20 seconds.

After setting this, you can enter the next group of mode settings as needed, or you can continue pressing 【MODE】 to return to the LCD home page if not needed.

04 MAINTENANCE AND UPKEEP

Scent diffusers require regular cleaning and maintenance every 1-2 months when in normal use. Below is the method for cleaning.

① Spray nozzle cleaning:
◆ Use 95% "alcohol + cotton swab" to gently wipe the nozzle, removing the residue of essential oil liquefaction
◆ Cleaning the atomizer core can be cleaned by soaking a cotton swab in 95% alcohol and wiping the core with it, or by soaking the atomizer core in alcohol and then wiping it to dry.
② Oil bottle cleaning:
◆ Before changing essential oils each time, clean the oil bottle with alcohol and allow it to dry completely.

When equipment is not used for a long period, it is necessary to clean the internal nozzles and other components thoroughly.
◆ Add 95% industrial alcohol to the empty bottle.
◆ Turn on the device and run it for 10-15 minutes.
◆ Turn off the device, pour out the alcohol from the bottle and let it dry before reassembling the device.
◆ Power off storage, unplug the power supply, to prevent electrostatic damage to the circuit.

---

05 REPLACE ATOMIZER CORE

The atomizer head assembly is divided into: atomizer head, essential oil bottle, oil suction tube, filter and atomizer core.
Operation steps: Unscrew the essential oil bottle first, pull out the suction tube, remove the old atomiser core with the clamping tool tweezers, replace the new atomiser core in it, and then assemble all the parts back to the device.
(Note: Press all components firmly to prevent detachment.)

06 CONCENTRATION & CONSUMPTION

Grade	Work time/s	Stop time/s	Consumption(g/h)
Minimum	5s	600s	0.07
Medium	100s	300s	2.25
Maximum	200s	20s	8.18
100% On Text	Fully Open	0	9.00

1. The above data is based on the test essential oilused: Park Hyatt (density ≥0.95).
2. The above data is for reference only, and the amount of atomization produced by different essential oils will be different.

⚠ SAFETY PRECAUTIONS FOR USE

Safe use：
①After loading the essential oil, the device must always remain upright and facing upwards, not inverted or tilted, otherwise it may damage the internal components of the device.
②During the transportation of the equipment, it is necessary to empty the essential oils from the bottles to avoid oil leakage and damage to the equipment.
③This device cannot be used for air humidification and cannot be filled with water;
④Please place it in a location inaccessible to children and pets.
⑤Store in a dry and cool place, do not use this device in high temperature or humid environments.

Forbidden：
①Do not cover the equipment in use.
②Prohibit the use of overloaded power outlets, power cords, or damaged power plugs, as this may damage equipment or even cause fires.
③Essential oils should not be ingested and should be kept away from contact with the eyes. In case of eye contact, rinse thoroughly with plenty of water; if there is a strong sensation, seek medical attention immediately.
④Please do not disassemble the equipment. If any abnormalities are found in the product, please contact us promptly.
